PROFILE

I'm a Computer Engineering student and aspiring Network Infrastructure Engineer who loves designing, deploying, and hardening systems that stay reliable under real-world load. I pick up new tools quickly and apply Linux, Python, and network administration skills to real infrastructure problems — using AI and automation to speed up configuration, monitoring, and troubleshooting. Hands-on by nature, I've sharpened my skills through system deployments, hands-on labs, and leadership roles, and I'm now looking for an internship where I can contribute from day one, work with real network and system environments, and grow into infrastructure engineering, systems administration, and network security.

COMPETITIONS

Sep 2025 **Competitor, Thailand Cyber Top Talent 2025 (THCNA)** Bangkok
Achieved **6th place in the national round** by demonstrating technical proficiency in live challenges.

- Completed hands-on tasks in penetration testing, capture-the-flag (CTF) problems, and incident-response scenarios.

Primarily solved **blue team problems** as part of the team.

EMPLOYMENT HISTORY

Apr 2026 - Jun 2026 **System Engineer, Anyware Communication Co., Ltd.** Songkhla, Hatyai
System Engineer responsible for designing, configuring, and supporting network and system services for clients.

- Deployed and configured** network devices and servers; performed installations, configuration, and routine maintenance.
- Troubleshoot network and service issues** to reduce downtime and improve reliability.
- Created **network diagrams, standard operating procedures, and documentation** to streamline deployments and handovers.

Apr 2025 - May 2025 **Cybersecurity Team, DiiS PSU** Songkhla, Hatyai
Intern in DiiS PSU Cybersecurity Team supported security operations and hands-on technical tasks.

- Monitored logs and alerts using **SIEM tools**, investigated potential incidents and escalated confirmed threats to senior engineers.
- Created and updated** security **documentation**, runbooks, and checklists to improve team efficiency.

Mar 2025 - Mar 2026 **President of IRC, Prince of Songkla University** Songkhla, Hatyai
President of the International Relations Club (IRC), leading club activities and member engagement during a one-year term.

- Led planning and execution of events**, workshops, and cultural exchanges to increase student participation and international collaboration.

EDUCATION

Jun 2023 - Jun 2027 **B.Eng. Computer Engineering, Prince of Songkla University** Songkhla, Hatyai
GPAX 3.36
Bachelor of Engineering Program in Computer Engineering with a strong foundation in computer systems, networking, and cybersecurity with hands-on lab and project experience.

- Coursework:** Data Structures & Algorithms, Computer Networks, Operating Systems, Cybersecurity, Web Development, Software Development Architecture, Network Administration, AI Ecosystem
- Skills:** Linux, Python, C/C++, TCP/IP, network configuration, vulnerability assessment
- Projects:** Built networked embedded systems, conducted security exercises, produced technical documentation and test reports

SKILLS

Communication in English	Experienced	System Engineering	Experienced
Adaptability	Experienced	Prompt Engineering	Experienced
Leadership	Experienced	Network Infrastructure	Experienced
Teamwork	Experienced	Cybersecurity	Skillful
Curiosity	Skillful	Programming (Python)	Skillful
Self-motivated	Skillful	Cloud Computing	Skillful
Analytical Thinking	Skillful	SQL	Intermediate
Planning skills	Skillful	Machine Learning	Intermediate
